

Murray Bridge Veterinary Clinic 08 8532 2333

## **FASTING PROCEDURE**

If your pet is having a general anaesthetic or sedation it needs to be fasted.

The procedure is:

- **NO FOOD** after 6pm the night before surgery, leave **WATER** with your pet overnight
- All Pets must be **Flea-Free** on the day of surgery —see staff for assistance
- **Please allow 15 minutes to speak with the surgery vet at this time**
- Dental surgery is done after sterile surgeries, so patients will go home later in the day
- **Please make sure dogs are on leads and cats in a secure container (plastic and cardboard boxes are available for purchase from the clinic) Unfortunately we don't have cages to loan out.**
- Your pet's appointment is: **8:00am / 8:15am** \_\_\_\_\_
